Truly 'Jointless' Belts.

DYNAMIC's "Truly Jointless belts" are made in endless form without any joints. We have a custom made Specially designed machine for Making Truly Jointless belts.

This belts reduce the joint failures and snapping of belts due to same. Moreover they are already endless so saves time and efforts in installing on site.

Truly 'Jointless'
Belts

Fig. 5.1. Example of an Jointless Belt

Winder helps in uniform release of plies. Which eventually helps in seamless construction and formation of jointless belts.

Conveyor Plies are placed here for a seamless supply of plies for construction of Truly 'Jointless' Belt.

**Conveyor Belt
Winder & Plies**

- ▶ Longer life, compared to traditional jointed belts.
- ▶ Better for heat and Oil related applications.
- ▶ We offer the same in plain as well as cleated belts.
- ▶ Customisable Cover options, Width and length options available.

Tracks

Tracks to adjust length of conveyor belts as per need. This gives uniform endless length on both sides. Eliminating variations.

Construction Table

This helps in maintaining proper pressure to release air pockets and give proper adhesion.

Table also has tensioning unit which provides for limited elongations post curing.
